

Mapping Startup Ecosystem in Cambodia

Supported by:

Methodology and Scope and Limitation

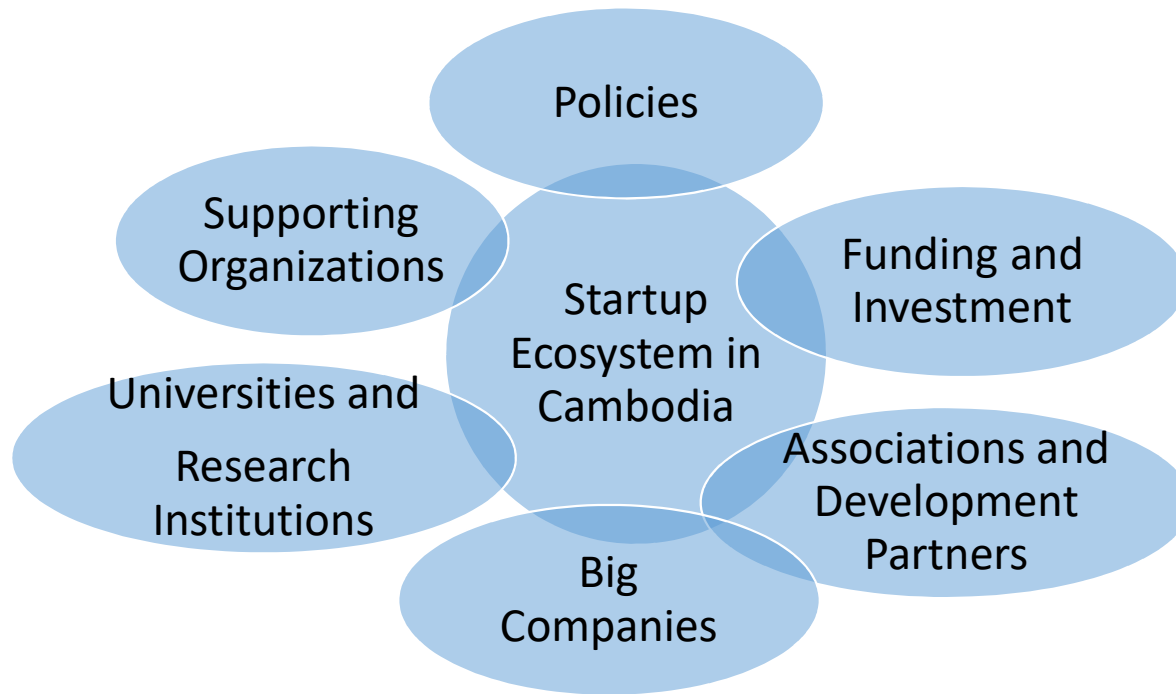

Methodology

- Conduct the desk research
- Conduct the interviews with startup supporting organizations, universities, associations, big company, funding agencies, and government organizations

Scope and Limitation

- The study did not interview startups.
- Interviews were conducted from 15 November to 30 December 2016.

Policies

SME Development Framework (Draft)

Short-term incentives to support startups

- Available information on project incentives
 - First focusing on garment, food processing, construction, trade, agro-industries, and creative sectors and later focusing on technology, logistics, repair service, and rubber processing
 - Support and coordinate the access to finance
 - Provide tax incentives, assistance for introduction of technology, incubator, office and communication facilities
 - Promote business development services (BDS)

SME Development Framework (Draft)

Long-term incentives to support startups

- "Extension of the coverage of the incentive scheme under the investment law"
 - Develop the law to promote startup

Thank You!
